Professional Development- COVID-19 Update

As Luminis Health implements SAFE READY OPEN, moving into a new world of how we serve our communities and how we work together, the HRD Team is reconfiguring how it will continue to support employee development.

Over the summer we are introducing webinar-based training on leadership development and other topics. We will communicate the topics across the organization as they are made available, and they will be included in our monthly newsletter. For the most part, they will be short: one hour to an hour and half in length. They will be available to all Luminis Health Employees, including DCMC staff.

Program Updates:

- Orientation
- LEAD Academy
- Leadership Essentials
- Auxiliary Scholarships
- Open Enrollment Classes

Other Learning Topics:

- 2020 Annual Competencies Information
- Education Benefits
- Continuing Education - Clinicians**
